eClaims April Webinar

AGENDA

01 What is Net to Zero (NTZ)?

02 NTZ: Relevant Change Log Items

03 Coding Changes

04 Questions?

What is Net to Zero?

NEW YORK STATE OF OPPORTUNITY. | Workers' Compensation Board

Net to Zero Code (NTZ)

- DN0442 (Net to Zero [NTZ]) is a code to report indemnity benefits owed to the injured worker, but because of a full offset due to an adjustment, credit, or reduced earnings, the Net Weekly Amount has been reduced to zero in accordance with NYCRR §300.22(f)(2).

- This code is only present during the time the benefit is being reduced to zero.

- Value: Z = Net to Zero.

  - Added to R22, position 646, format 1 A/N.

SROI Event Tables Revised 10/29/2021

| Report Type | Maintenance Type | | Suspension | Event Rule | | | Report Trigger | | When is the Report Due? | | | Statute | Paper Form | Receiver |
	Code	Description	Reason Code	Criteria	From	Thru	Criteria	Trigger Value	Value	Due Type	From			
SROI	ER	Employer rein-statement		3= Jurisdiction defined	4/23/14 Modified 4/29/2022		Z2 = DN0442 (Net to Zero Code) Adjustments/Credits reporting. Report is due within 18 days of a resumption of payments for a disability becoming due in the event that payments are not being made due to a credit owed to the carrier as defined by §300.22(f)(2)	N/A	16	C	J=Report Trigger	§300.22 (f)(2)	SROI-ER	EE, Claimant's Atty (if any)
SROI	RB	Rein-statement of Benefits		3= Jurisdiction defined	4/29/2022		Z2 = DN0442 (Net to Zero Code) Adjustments/Credits reporting. Report is due within 18 days of a resumption of payments for a disability becoming due in the event that payments are not being made due to a credit owed to the carrier as defined by NYCRR§300.22(f)(2)	N/A	18	C	B=Date of Disability	§300.22 (f)(2)	SROI-RB	EE, Claimant's Atty (if any)

The best business scenario to use for this is when accepting liability of lost time after a Schedule Loss of Use (SLU) payment has been made. In this scenario, a value of "Z=Net to Zero" would apply, as the Claim Administrator can take a credit on the previously paid SLU until the balance has been absorbed.

What This Means For Claim Administrators

- New York is using DN0442 (NTZ Code) as stated on the Event table for claim administrators to notify the Board that they are accepting liability for lost time but not paying the claimant at this time due to the previous SLU credit on the balance of the previous award.

- They must do this by filing either a SROI=IP or SROI-RB.

- This change becomes effective on April 29, 2022, as published in the eClaims change logs ID#s posted on October 29, 2021, and March 15, 2022. The changes posted on October 29, 2021, were covered in the November 16, 2021, eClaims webinar. A recording of this webinar is posted at wcb.ny.gov/content/ebiz/eclaims/Presentations.jsp.

What This Means For Injured Workers

■ Injured workers and claimant representatives, if any, will receive the paper SROI-IP or SROI-RB listing a benefit segment with a $0 net weekly amount and DN0442 (NTZ Code) = Z, which explains that the claim administrator is accepting liability, but taking credit on the previous SLU balance.

NTZ: Relevant Change Log Items

Relevant Change Log Items

Item #	Document	Item	Description of Change	Publish Date	Implementation date
249	Element Requirements - SROI Element Requirements Edit Matrix - DN Error Messages Edit Matrix - Valid Value Table Edit Matrix - Valid Values Detailed Page 1 Edit Matrix - Population Restrictions	DN0442 (Net to Zero Code)	**Correction - See Change Log ID#290**. Add New Data Element for IRR CLM 914. **Element Requirements**: IAIABC Change Log ERT 207. AR for 04, AC, AP, CA, CB, IP, PD, PY, RB, SX, SU, UR For SROI-02, Add - H, Update - H, Remove - H Added to R22, position 646, format 1 A/N **Edit Matrix** - IAIABC Change Log EM 135 to add Valid Values: Z: Net to Zero Added Error 058 (Code ID Invalid) and Error 064 (Invalid data relationship) for DN0442. Added Population Restrictions 0442-064 A) through 0442-064 E)	10/29/2021	4/29/2022
252	Element Requirements - Event Benefit Conditional	DN0192 (Benefit Payment Issue Date)	Modified Mandatory Condition on DN0192 (Benefit Payment Issue Date) to reflect new DN0442 (Net to Zero Code) **New Business Condition:** Must be present if Maintenance Type Code = AP, CA, CB, IP, PY, RB, SX and Benefit Type Code = 0xx unless Net to Zero Code = Z (Net to Zero) is present. MTC-UR: This field should be populated with the Benefit Payment Issue Date of the first payment made to the claim **New Technical Condition:** Mandatory if Maintenance Type Code (MTC) = AP, CA, CB, IP, PY, RB, SX and Benefit Type Code = 0xx unless DN0442 (Net to Zero Code) Z (Net to Zero) is present. Edit on SROI-RB and SX is effective 2/14/2020. Edit on SROI-CA and CB is effective 1/24/2022. This data element is required under these conditions. Edit on DN0442 (Net to Zero Code) effective on 04/29/2022. **Business Need:** Updating requirement to reflect new Net to Zero Code DN.	10/29/2021	4/29/2022
259	Edit Matrix - Population Restrictions	DN0002 (Maintenance Type Code)	Modified Edit. Added dependency to Population Restriction 0002-065 B) on DN0442 (Net to Zero Code) and updated the Element Error Text/ **Was:** B) If SROI-CB has a Benefit Segment with DN0202 (Reduced Benefit Amount Code) of R (Reclassification of Benefit) or D (Decrease in Indemnity), then there must be at least one Benefit Segment with its DN0002 (Maintenance Type Code) populated with A49 record's DN0002 (MTC) of CB. **Now:** B) If SROI-CB has a Benefit Segment with DN0202 (Reduced Benefit Amount Code) of R (Reclassification of Benefit) or D (Decrease in Indemnity), or DN0442 (Net to Zero Code) is Z = Net to Zero, then there must be at least one Benefit Segment with its DN0002 (Maintenance Type Code) populated with A49 record's DN0002 (MTC) of CB. Edit on DN0442 (Net to Zero Code) effective on 04/29/2022. Element Error Text: in at least 1 Ben must=CB if RedBen=R/D or DN442=Z **Business Need:** Updating requirement to reflect new Net to Zero Code DN.	10/29/2021	4/29/2022

Coding Changes (non-NTZ)

ID #	Change Description	Publish Date	Implementation Date
267	Modified Population Restriction 0154-117.	10/29/2021	4/29/2022
	Was: DN0154 (Employee ID Assigned By Jurisdiction) cannot change once accepted. Once DN0042 (Employee SSN) is available to be reported, then a MTC 02 should be sent with DN0270 (Employee ID Type Qualifier) of S and DN0042 (Employee SSN) … without any other Match Data Elements being changed on it		
	Now: DN0154 (Employee ID Assigned By Jurisdiction) cannot change once accepted unless the following are true: a) the latest values of DN0052 (Employee Date of Birth) is in YYMMDD format or 6 nines if it is not known b) followed by the first character of DN0044 (Employee First Name), c) followed by up to the first 8 characters of DN0043 (Employee Last Name). Once DN0042 (Employee SSN) is available to be reported, then a MTC 02 should be sent with DN0270 (Employee ID Type Qualifier) of S and DN0042 (Employee SSN) … without any other Match Data Elements being changed on it Changes described in Change Log ID#266 effective 4/29/2022.		
	Business Need: This change was based off of an outstanding enhancement WCB had planned for EDI 3.0.		
268	Modified Population Restriction 0192-044.	10/29/2021	4/29/2022
	Was: Date on AP/IP/PY/RB must not be > date the WCB received the transmission + 4 days. Effective 2/15/2017 Effective 5/1/2020 Adding SX.		
	Now: Date on AP/IP/PY/RB must not be > date the WCB received the transmission + 4 days. Effective 2/15/2017 Effective 5/1/2020 Adding SX. Effective 4/29/2022 Adding CA/CB.		
	Business Need: This change was needed to help support a prior change made for IRR901 - see Change Log #98.		

NYS Workers' Compensation Board

March 15 eClaims change log IDs #290-320

ID #	Change Description	Publish Date	Implementation Date
290	Clerical Edit. Correction to Change Log #249. The Element Severity Code for DN0442 on the SROI-SU is 'NA', not 'AR' as mentioned in the #249.	3/15/2022	3/15/2022
291	Clerical Edit. Correction to Change Log #270. It was referencing Change Log ID#268 instead of Change Log ID#269.	3/15/2022	3/15/2022
292	Clerical Edit. Updated the trigger value for W4 to "deny entire claim after any SROI (excluding MTC NT) has been accepted", in accordance with the IAIABC 2021 EVT26.	3/15/2022	3/15/2022
293	Clerical Edit. New version of the Instructions page to clarify MTC 02 FROI and SROI Reporting Requirements Instructions, in accordance with the IAIABC 2021 ERT221.	3/15/2022	3/15/2022
294	Clerical Edit. Added FC (Fatal Conditional) to the legend as it is listed in the Implementation Guide in Section 2, in accordance with the IAIABC 2021 ERT220.	3/15/2022	3/15/2022
295	Clerical Edit. Updated 02 Requirement Code column by changing the 'm' to a gold 'MD' for DN0031 Date of Injury, DN0044 Employee First Name, and DN0043 Employee Last Name, in accordance with the IAIABC 2021 ERT222.	3/15/2022	3/15/2022
296	Clerical Edit. Changed color of DN0036 from orange # to blank for the FROI AQ and FROI UR, in accordance with the IAIABC 2021 ERT217.	3/15/2022	3/15/2022
297	Clerical Edit. Changed color of DN0196 from orange # to green @ for FROI 00, in accordance with the IAIABC 2021 ERT215.	3/15/2022	3/15/2022
298	Modified the SROI-02 Reportable Change Code for "Add", "Update", and "Remove" from 'H' to 'NA.' Also changed the 02 Requirement Code from 'MC' to 'NA'.	3/15/2022	3/15/2022
299	Clerical Edit. Changed color of DN0056 from orange # to & (a light red) for SROI AP, in accordance with the IAIABC 2021 ERT216.	3/15/2022	3/15/2022
300	Modified the SROI-02 Reportable Change Code for "Add", "Update", and "Remove" from 'H' to 'N.' Business Need: Decided that Net to Zero Code should not be modifiable on an 02. "Update" does not make sense since "Z" is the only value for DN0442 and 0442's DP Rule states that A/R should not be done on an 02.	3/15/2022	4/29/2022

ID #	Change Description	Publish Date	Implementation Date
301	Clerical Edit. Updated DN0442's Severity Code to 'X' for SROI-SA, in accordance with the IAIABC 2021 ERT.	3/15/2022	4/29/2022
302	Clerical Edit. Removed the "L" from Error Code 126 Number of Occurrences < or > for DN0412, in accordance with the IAIABC 2021 EM140.	3/15/2022	3/15/2022
303	Clerical Fix. DN0016 (Employer FEIN) and DN0052 (Employee Date of Birth) are both being checked against DN0041 in Population Restriction 0041-064 B), as part of the "following DNs have additional condition of Unless the latest active/valid DN0198 (Full Denial Reason Code) is 3E, 3D, 3A:" sub condition.	3/15/2022	1/24/2022
304	Modified Edit. Currently 0041-064 B) compares DN0119 (Accident Site Narrative) to DN0164 (Employer Physical Country Code) when determining whether DN0123 (Accident Site State Code) is required. It is being updated so that DN0119 is instead being compared to DN0280 (Accident Site Country Code). Business Need: This was a typo in the Population Restriction that we are correcting.	3/15/2022	9/15/2022
305	Clerical Fix. DN0406 is still being assessed as part of this Population Restriction, as part of the "following DNs have additional condition of latest value of DN0072 (Latest RTW/Status Date) is present:" sub condition. Business Need: This was accidentally removed in the previous iteration of the Edit Matrix.	3/15/2022	1/24/2022

NYS Workers' Compensation Board

ID #	Change Description	Publish Date	Implementation Date
306	Relaxed Edit. Modified Edit 0074-064 K) to have an additional condition that "and the last accepted SROI (other than SROI-02) was PD/PY" so that it reads: K) If DN0074 (Claim Type Code) is equal to W (Lost Time with No Paid Indemnity) and the last accepted SROI (other than SROI-02) was PD/PY and DN0075 (Agreement to Compensate Code) is blank or null Then DN0075 (Agreement to Compensate Code) must be included in the Change Variable Segment and must have a value This edit is effective as of 01/24/2022. Business Need: Specified that this requirement only applies on SROI-02s after a SROI-PD/PY as otherwise it was triggering unintentionally.	3/15/2022	3/31/2022
307	Clerical Edit. Modified Edit 0074-064 L) so that it now reads: L) DN0075 (Agreement to Compensate Code) must be L (With Liability) if DN0074 (Claim Type Code) is M (Medical Only) or W (Lost Time with No Paid Indemnity). This applies to all dates of accident effective 1/1/2019. If DN0074 (Claim Type Code) is M (Medical Only) or W (Lost Time with No Paid Indemnity) and DN0075 (Agreement to Compensate Code) is not L (with liability) then DN0075 (Agreement to Compensate Code) must be included in the Change Variable Segment This edit is effective as of 01/24/2022. Business Need: Clarifying requirement effective date.	3/15/2022	3/31/2022

March 15 eClaims change log IDs #290-320 (continued)

ID #	Change Description	Publish Date	Implementation Date
308	Relaxed Edit. Modified Edit 0074-064 M) to specify which Date of Accident on or after 1/1/2019 so that it now reads: M) DN0075 (Agreement to Compensate Code) must be L (With Liability) if Claim Type Code is P (Indemnity with No Lost Time Beyond Waiting Period) if only BTC accepted to date is 030, 090, 530, or 590. This applies to dates of accident on or after 1/1/2019. If DN0074 (Claim Type Code) is P (Indemnity with No Lost Time Beyond Waiting Period) and the only BTC accepted to date is 030, 090, 530, or 590 and DN0075 (Agreement to Compensate Code) is not L (With Liability) and DN0031 (Date of Injury) is >= 1/1/2019 then DN0075 (Agreement to Compensate Code) must be included in the Change Variable Segment. This edit is effective as of 01/24/2022. Business Need: This requirement needs to specify that it is only for Dates of Accident on or after 1/1/2019.	3/15/2022	3/31/2022
309	Clerical Edit. Updated DN0075-064 A) to explicitly state that Agreement to Compensate Code must be L (with Liability) or null. Was: A) If SROI-PY and no benefit segments have been accepted to date, Agreement to Compensate Code must be L (with Liability). Effective 11/7/2016. Now: A) If SROI-PY and no benefit segments have been accepted to date, Agreement to Compensate Code must be L (with Liability) or null. Effective 11/7/2016. Business Need: This clarifies that Agreement to Compensate could also be null, something the Population Restriction was already checking.	3/15/2022	1/24/2022
310	Relaxed Edit. Removed Population Restriction 0085-064 B). Business Need: This requirement needs to specify that it is only for Dates of Accident on or after 1/1/2019.	3/15/2022	2/4/2022

NYS Workers' Compensation Board

ID #	Change Description	Publish Date	Implementation Date
311	Clerical Edit. Renumbered '0085-064 C)' to '0085-064 B)', '0085-064 D)' to '0085-064 C)'. Business Need: The other Population Restrictions for DN0085-064 need to be removed to accommodate the removal of 0085-064 B).	3/15/2022	9/15/2022
312	Modified Edit. 0192-064) was modified removing the condition that evaluated whether the incoming value for DN0192 was before any previously accepted value for DN0192. Was: If the earliest DN0192 (Benefit Payment Issue Date) reported on the SROIs accepted on that case is more than 365 days in the past then DN0075 (Agreement to Compensate Code) must be L (with liability). If DN0075 (Agreement to Compensate Code) is not L (with liability) and DN0192 (Benefit Payment Issue Date) is before any other accepted DN0192 (Benefit Payment Issue Date) and is more the 365 days in the past or ANCR/ODNCR has been established, then DN0075 (Agreement to Compensate Code) must be included in the Change Variable Segment. Now: If the earliest DN0192 (Benefit Payment Issue Date) reported on the SROIs accepted on that case is more than 365 days in the past then DN0075 (Agreement to Compensate Code) must be L (with liability). If DN0075 (Agreement to Compensate Code) is not L (with liability) and DN0192 (Benefit Payment Issue Date) is more than 365 days in the past or ANCR/ODNCR has been established, then DN0075 (Agreement to Compensate Code) must be included in the Change Variable Segment. Business Need: This is to prevent DN0075 from being 'W" if the Benefit Payment Issue date is now greater than 365 days in the past.	3/15/2022	9/15/2022

NYS Workers' Compensation Board

ID #	Change Description	Publish Date	Implementation Date
313	Relaxed Edit. Removed Population Restriction 0284-045. Removed 'L' from DN Error Message tab for DN0284 and error 045. Business Need: This requirement is no longer necessary.	3/15/2022	1/24/2022
314	Relaxed Edit. Removed Population Restriction 0285-045. Removed 'L' from DN Error Message tab for DN0285 and error 045. Business Need: This requirement is no longer necessary.	3/15/2022	4/29/2022
315	Relaxed Edit. Remove SROI-PY from the list of applicable Report or MTCs for 0288-045 B. This reverts Change ID#55. Also removed 'PY' from the explicit Population Restriction text so that it now reads: B) If SROI-AP/CA/EP/ER/IP/RB/SX does not have a DN0202 (Reduced Benefit Amount Code)= D (Decrease in Indemnity),N (No Money Settlement), or S (Claim Settled Under Another DOI), or DN0442 (Net to Zero Code) is not Z (Net to Zero), or DN0226 (Recovery Code) = 880, then DN0288 (Number of Benefits) must not be 0. Edit on DN0442 (Net to Zero Code) effective on 04/29/2022. Business Need: This requirement did not need to include the SROI-PY.	3/15/2022	1/24/2022
316	Clerical Edit. Updated 0288-064 C)'s Element Error Text to start with a 'C' rather than a 'B'	3/15/2022	1/24/2022

March 15 eClaims change log IDs #290-320 (continued)

ID #	Change Description	Publish Date	Implementation Date
317	New Population Restriction 0289-064. If Net to Zero Code = Z (Net to Zero), then Number of Benefit ACR (DN0289) must be >0 unless Number of Reduced Earnings (DN0285) > 0 Edit on DN0442 (Net to Zero Code) effective on 04/29/2022. Error 064 - Invalid data relationship Element Error Text - Cannot be 0 when NTZ=Z and RE=0 Also added an 'L' for DN0289 and error 064. Business Need: New Edit to prevent removing ACR segments on a SROI-02 while the Net to Zero Code is present.	3/15/2022	4/29/2022
318	Removed Population Restriction 0290-064 A). Renumbered '0290-064 B)' to '0290-064 A)' and '0290-064 C)' to '0290-064 B)'. Business Need: 0290-064 A) was originally announced in 2020 but was quickly rescinded. However the Edit Matrix - Population Restriction tab was never updated to match. This edit should fix that.	3/17/2022	3/17/2022

NYS Workers' Compensation Board

ID #	Change Description	Publish Date	Implementation Date
319	Removed existing Population Restrictions 0442-064 A)-E. This is removing previously announced Population Restrictions documented in Change Log IDs 284-288. Business Need: Based off of the changes to make Net to Zero Code no longer editable on a SROI-02, these Population Restrictions are no longer necessary.	3/15/2022	4/29/2022
320	Implemented a NEW Population Restriction on DN 0442, for error code 064. If Net to Zero Code = Z (Net to Zero), then Number of Reduced Earnings (DN0285) must be >0 unless Number of Benefit ACR (DN0289) > 0 Edit on DN0442 (Net to Zero Code) effective on 04/29/2022. Error 064 - Invalid data relationship Element Error Text - Cannot be Z when RE=0 and ACR=0 Business Need: Based off of the changes to make Net to Zero Code no longer editable on a SROI-02, these Population Restrictions are no longer necessary.	3/15/2022	4/29/2022

Acceptance after Denial

- To accept a claim after a FROI-04:

  - For cases with a date of accident prior to 1/1/2019, you need to submit a FROI-00 with Claim Type Code other than N (Notification Only).
    - If you try to file a FROI-00 with N after your FROI-04, it will be rejected.

  - For cases with a date of accident on or after 1/1/2019, you need to submit a FROI-00 with Agreement to Compensate Code of L (With Liability).
    - If you try to file a FROI-00 with W (Without Liability) after your FROI-04, it will be rejected.

- To accept a claim after a SROI-04:

  - A SROI that indicates what event has occurred that shows acceptance or a SROI-02.

  - For cases with a date of accident prior to 1/1/2019, you will need to send DN0196 (Date of Rescission).

  - For cases with a date of accident on or after 1/1/2019, the Agreement to Compensate Code shows acceptance of a claim.

Ongoing Monitoring

- eClaims data reports are available at www.wcb.ny.gov/content/ebiz/eclaims/Registration/InqOverview.jsp

- If a sender is not meeting the acceptance rate target, these reports will be sent to the contacts listed in the trading partner profiles and a corrective action plan will be developed.

- The Board will monitor data transmissions for completeness, validity, and accuracy.

- Trading partners may be sent quality control reports that measure their data quality.

- Trading partners are expected to meet or exceed a 90% accuracy rate for transaction acceptance.

- The Board will automatically monitor the quality of the data received during production from individual trading partners.

- The data quality is determined based upon all error types and the number of rejections over a specified period.

- Trading partner profiles must be kept up to date. The Board must be notified of any changes. If the transmission mode or specifications are changed, re-testing some or all transaction types may be required.
