Monetary Amounts: Type = \$9.2 Data elements that are assigned the format of \$9.2 should be populated with only a valid monetary amount. Valid entries consist of eleven numeric digits with the dollar sign assumed and the decimal point between the ninth and tenth position assumed. Negative amounts or default of zeros in a monetary amount field are not valid. Spaces indicate absence of data. Example: 0000005000 = \$50.00	9/15/22	3/16/23
344	Edit Matrix - Valid Value Table Edit Matrix - Valid Value Detail Page 2	DN0428 (Dependent Gender Code)	Added and greyed out X - Nonbinary and T - Self-reported Transgender values for DN00428, Dependent Gender Code on the Valid Value Table and the Valid Value Detail Page 2 since they are not applicable to NYS business rules.  <b>Business Need:</b> IRR CLM925 Nonbinary Gender Reporting Option.	9/15/22	3/16/23

**Reminder: 0418-064A  
Correction  
Implemented on  
7/28/2022**

# Reminder: Population Restriction 0418-064A

The Board discovered a Population Restriction was not properly coded for the launch of R3.1 on 1/24/2022 as published on original Edit Matrix published on 3/12/2020.

0418	SX	Suspension Reason Code – Full	A) SROI-SX must have Suspension Reason Code – Full = SJ when temporary payments made pursuant to §21-a cease.	064	Invalid data relationship	Must be SH since §21-a ceased
------	----	-------------------------------	---------------------------------------------------------------------------------------------------------------	-----	---------------------------	-------------------------------

- Transactions inadvertently allowed SROI-SX transactions to be accepted when a DN0418 (Suspension Reason Code – Full) other than “SJ” was reported on any claim where §21-a had been applied. This edit should have rejected those submissions.
- Effective 7/28/2022 the edit was implemented, and an email blast was sent to contacts listed in trading partner profiles.
- The link to the NYS Workers’ Compensation Board’s process on §21-a can be found here:  
<http://www.wcb.ny.gov/content/ebiz/eclaims/sec21a-claims-paid-without-liability.jsp>
- Due to this error, please submit a SROI-02 changing DN0418 (Suspension Reason Code – Full) to “SJ” on any transactions submitted on §21-a claims where DN0418 was not “SJ.” This will ensure that data integrity within the Board’s Claims application system will be maintained.
- Note: Element Error Text was modified on 8/11/2022 based on trading partners’ feedback to replace “must be SJ since Section 21-a ceased” with “must be SJ since payments made under Section 21-a”.

# Most Frequent Errors Returned During the Past 90 Days

# Population Restriction 0085-064A

This most common error during the past three months is a carryover from eClaims R3.0 and is intended to stop a new DN0085 (Benefit Type Code) from being introduced as sweep benefit before an Event or UR(G)/SA included the Benefit Type Code based on the IAIABC Claims EDI Section 4 rules. This was the top error returned in the previous three months as well.

DN	Report or MTC	Data Element Name	Population Restriction	Error Message Number	Error Message Text	Element Error Text (DN0291)	Length of G	Length of col H, 50 pos allowed
0085	ALL except UR(G)	Benefit Type Code	A) If DN0002 (Maintenance Type Code) is not UR(G), then DN0085 (Benefit Type Code) other than 2xx or 5xx cannot be sent on a sweep benefit unless previously sent on any prior SROI unless no SROI has been accepted or if there have been only SROI-SA or SROI-UR(G) accepted.	064	Invalid data relationship	sweep BTC must have event BTC or on UR(G)/SA	25	44

# Population Restriction 0418-064A

The second most common error during the past 90 days is Population Restriction 0418-064A. Please refer to Slide 12 for more details on this edit.

DN	Report or MTC	Data Element Name	Population Restriction	Error Message Number	Error Message Text	Element Error Text (DN0291)	Length of G	Length of col H, 50 pos allowed
0418	SX	Suspension Reason Code – Full	A) SROI-SX must have Suspension Reason Code – Full = SJ when temporary payments made pursuant to §21-a are being suspended.	064	Invalid data relationship	Must be SJ since payments made under Section 21-a	25	49

# Population Restriction 0075-064C

The third most common error returned in the past 90 days is an eClaims R3.0 carryover to ensure that DN0075 (Agreement to Compensate Code) is sent as “With Liability” after the Board has issued a Notice that the case has been established with an ANCR/ODNCR finding in accordance with Section 21a.

DN	Report or MTC	Data Element Name	Population Restriction	Exception	Error Message Number	Error Message Text	Element Error Text (DN0291)	Length of G	Length of col H, 50 pos allowed
0075	All SROI except SA	Agreement to Compensation Code	C) SROI (exc SROI-SA) cannot list Agreement to Compensate Code – W if ANCR/DNCR has been established (excluding 25(1)(f) cases or ANCR/ODNCR finding pending appeal). Effective 3/15/2018	Effective 11/17/19, this edit will not be applied if DN0059 (Manual Classification Code) has been accepted as 7711 or 7370.	064	Invalid data relationship	Must be L since ANCR/ODNCR has been established	25	47
